Why Aalto? The sceptic builds for religion - Alvar Aalto

In the final sections of the book, Nicholas Ray examines several general themes relating to Aalto's work and philosophy. Ray also offers an original and provocative view of Aalto's theory, arguing that the architect's position consistently opposed that of his contemporaries and indeed of most architects to this day.

Alvar Aalto | Yale University Press

Nicholas Ray has structured the book on Alvar Aalto in a very intelligent way: reducing the number of works analysed, but extending the section on the major aspects of his theoretical view and highlighting the differences that put Aalto in a self-refferential position within the Modern movement.

Nicholas Ray (2005, 154-156) suggests that Aalto could very well have approved of Zevi's interpretation of organic architecture, where he differentiated between a human and humanistic approach. Ray also notes Zevi's brief reference to Johann Wolfgang von Goethe (1749-1832), which provides Ray with the impetus to discuss more extensively the latter's natural-scientific method.
