Behavioral Case Formulation And Intervention

Behavioral Case Formulation and Intervention redresses this imbalance by exploring radical behaviorism and its approach to the conceptualization, case formulation and treatment of psychopathology. Peter Sturmey describes the conceptual foundations of functional approaches to case formulation and intervention, explains the technology and application of behavioral assessment and hypothesis-driven intervention, and identifies outstanding and conceptual and practical problems within this framework.

BEHAVIORAL CASE FORMULATION AND INTERVENTION

Work with the client described in this single case report provided an opportunity to explore the use of formulation as intervention and evaluate ways in which it may or may not prove helpful by interviewing the client directly about her experience of the process. Implications for further research on the use and outcomes of formulation are ...

Formulation as intervention: case report and client ...

A case formulation is a hypothesis about the psychological mechanisms that cause and maintain an individual's symptoms and problems (Kuyken et al., 2009; Persons, 2008). It's a principle-driven approach that targets mechanisms grounded in basic psychological theories—such as cognitive theory, classical and operant conditioning.

science into action. They discuss case formulation and treatment planning, core behavioral intervention strategies, and innovative approaches, such as acceptance, mindfulness, and a behavioral approach to cognition. Flexible and useful across different client populations, the behavioral interventions described here

Behavioral Interventions in Cognitive Behavior Therapy

While diagnosis has traditionally been viewed as an essential concept in medicine, particularly when selecting treatments, we suggest that the use of diagnosis alone may be limited, particularly within mental health. The concept of clinical case formulation advocates for collaboratively working with patients to identify idiosyncratic aspects of their presentation and select interventions on this basis.

Is diagnosis enough to guide interventions in mental ...

Behavioral case formulations used in applied behavior analysis and behavior therapy are built on a rank list of problem behaviors, from which a functional analysis is conducted, sometimes based on relational frame theory.
