Other than that it looks like a Harley number. Harley Engine Number Lookup ...

## **Harley Engine Number Lookup - trumpetmaster.com**

Beginning in 1981, Harley started using a 17 digit VIN number on the frame and an abbreviated VIN on the engine case. As always, the legal title must match the VIN number on the frame. If the title and frame VIN reads 1HD1ELK12BZ123456, the engine case number should read something like ELKB123456.

## **Harley VIN Identification | Harley Performance**

The number 24584-75 cast into the casing suggests the casting design originates in 1975, although that won't be its finished part number. From the stamped number 779-079-070 we can deduce from this website that the engine is an XL1000, made in 1979. The MICH number could be a factory serial number, but I am not certain about that.

## **Identifying engine year and size from engine case number ...**

Engines that were put on Harley bikes from 1970 to 1980 have the model year of the engine designated as the last two digits of the VIN number. The second to last digit will be an "H" or "J" followed by a number. Find the "H" or "J" in the second to last character position of the VIN.
