clear picture of a Forex pair's direction. If it corrects on the daily, it may still be bullish on the weekly. Or, if it corrects on the hourly, it may be bullish on the daily. And so on.

Almost all trading theories allow for multiple timeframes analysis.

However the monthly time frame of that same asset could be telling me to sell. With this in mind, using multiple time frames will give my trade setups full alignment. This will increase the probability of the trade going in my favour and realising a profit. Starting with the Monthly. My Technical analysis starts with the monthly time frame.

The biggest mistake
traders make is that
they typically start
their analysis on the
lowest of their time-
frames and then work
their way up to the
higher time-frames.
